

FESTIVE RECYCLING CHALLENGES

There are 6 credits up for grabs for completing these festive challenges. 1 credit will be awarded for each completed challenge. How many can you do?

Email your completed challenges to:
uk.veolia.discoverycentre@veolia.com

Do the scrunch test

Check your wrapping paper isn't plastic. Scrunch it, if it stays in a ball it's paper and can go in your recycling.

Make decorations

Dig out your craft supplies and make your own paper chains to deck the halls. You can recycle them when the holidays are over too!

Create your own cards

Royal Mail estimates it sends 150 million cards each year. Make yours recyclable.

Bake for a friend

Whip up a sweet treat for a present this year. What about gingerbread cookies? Or some cupcakes?

Bbcgoodfood.com has some great recipes.

Donate your unwanted gifts

Have a sort through your bedroom for things you no longer use or save presents you don't want and donate them to charity.

Waste not want not

Our food waste goes up by 80% during the festive season. Donate food you won't use to a food bank. Or love your leftovers at lovefoodhatewaste.com
